SEED ROUND PITCH DECK // 2026-2027

THE PROOF-OF-FOCUS PROTOCOL

Transforming human discipline from an exploited commodity into a gamified, high-stakes sport with 1v1 battle staking & physical commerce.

STAGE	CORE HOOK	ECOSYSTEM	STATUS
Seed Round ($1.5M)	1v1 Focus Duels	Tokens & Physical Merch	Play Store Pipeline

🔒 STRICTLY CONFIDENTIAL // FOR ACCREDITED INVESTORS ONLY

The Collapse of Human Attention

Multi-billion dollar algorithmic feeds have engineered a global dopamine crisis. Humans are losing the capacity for deep work.

4.8 hrs

DAILY PHONE SCREEN TIME

The average human spends nearly 1/3 of their conscious waking hours trapped inside algorithmic feedback loops.

Source: Data.ai Global State of Mobile

82+

PHONE UNLOCKS PER DAY

Focus is shattered every 11 minutes. It takes 23 minutes for the human brain to re-enter deep flow state after a single interruption.

Source: University of California, Irvine

94%

BYPASS NATIVE SCREEN TIME

Apple Screen Time & Google Digital Wellbeing are passive graveyard logs. Users simply tap "Ignore Limit for 15 Min" without consequence.

Consumer Behavioral Study (18-34 Cohort)

The Fundamental Void: Users do not want restrictive parental timers. They want dopamine-aligned incentives, prestige, and social competition.

T1: Focus as a High-Stakes Competitive Sport

Instead of shaming users with gray timers, T1 unlocks positive dopamine by rewarding uninterrupted flow with tokens, prestige, and live PvP battles.

Neural Focus Score

Real-Time Algorithmic Index (0–100)

Proprietary on-device model analyzing screen pickups, app switching latency, and deep work intervals into a single definitive discipline metric.

Proof-of-Focus Mining

Virtual Currency for Flow State

Every minute of uninterrupted focus mines T1 Tokens directly into the user's Dynamic Island wallet. Maintain streaks for massive multiplier bonuses.

1v1 Focus Duels

Peer-to-Peer Battle Staking

Challenge rivals by @username. Stake 10 to 100 tokens. First competitor to exit the app or check notifications forfeits their staked tokens to the winner.

Cultural Commerce

Physical Streetwear Milestone

Tokens aren't worthless pixels. Reaching 6,000 mined tokens unlocks physical, luxury T1 Signature Drops—turning digital focus into tangible real-world clout.

THE T1 FLYWHEEL: 1. Enter Monk Mode → 2. Mine Tokens → 3. Stake in 1v1 Duels → 4. Climb Global Ranks → 5. Unlock Physical Streetwear

Engineered for Addictive Discipline

A native, hardware-grade OLED interface pairing visceral micro-interactions with real-time biometric telemetry.

Concentric Focus Ring

CORE TELEMETRY

A living progress ring that reacts dynamically to screen unlocks and deep work intervals. Users see at a glance whether they are in the "Top 1% Performers" or falling behind yesterday's baseline.

Dynamic Token Island

DOPAMINE HOOK

An animated top capsule continuously counting mined tokens with spring physics. Tapping opens the decentralized wallet displaying transaction history, staking rewards, and merch redemption pace.

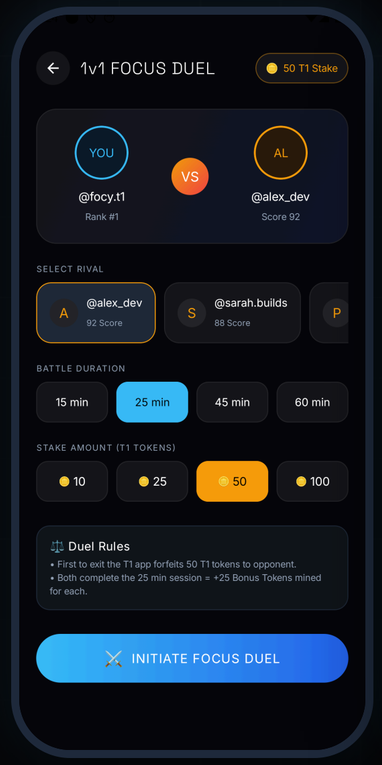

Zero-Surveillance Privacy Engine

ENTERPRISE GRADE

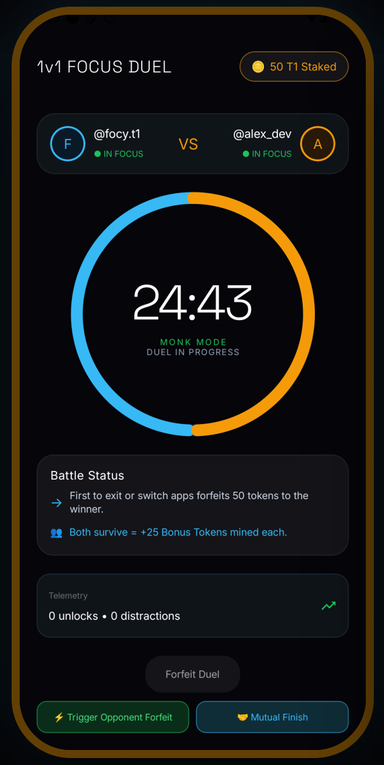

Unlike spyware tools, T1 never reads notifications, never logs keystrokes, and takes zero screenshots. All behavioural delta analysis is computed 100% on-device via Android AppOps.

1v1 Focus Duels: The Viral Growth Engine

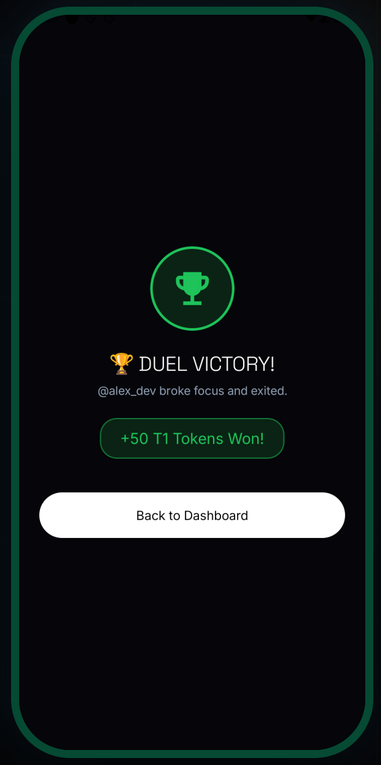

Digital discipline becomes an esports battle. Users stake tokens in head-to-head monk mode sessions where the first to exit loses everything.

1. WAGER & CHALLENGE

2. DUAL TIMER ARENA

3. INSTANT WINNER PAYOUT

High-Stakes Game Theory

Studying or coding alone has zero accountability. In a T1 Duel, your reputation and your token balance are on the line against your friend or rival.

- ✓ **Custom Stakes:** 10, 25, 50, or 100 T1 Tokens per match.
- ✓ **Flexible Durations:** 15, 25, 45, or 60 minute high-intensity sessions.
- ✓ **Mutual Survival Bonus:** If both endure to the end, +25 bonus tokens mined.
- ✓ **Zero Forfeit Tolerance:** App switching or backgrounding immediately forfeits.

K = 1.84

ORGANIC VIRALITY COEFFICIENT

Every duel invitation inherently recruits an opponent to download T1 and register. It converts focus from a single-player chore into a multiplayer social network.

Proof-of-Focus: From Virtual Tokens to Physical Luxury

Closing the loop between digital habits and real-world cultural status through limited-edition physical streetwear.

STEP 01 // MINTING

Proof-of-Focus Engine

Tokens cannot be purchased with fiat money—they must be earned through verified digital restraint.

Base Mining:	**+1 Token / 2 Min Flow**
7-Day Streak:	**+150 Bonus Tokens**
21-Day Habit Master:	**+600 Bonus Tokens**

STEP 02 // CIRCULATION

High-Velocity PvP Sinks

Tokens are actively wagered in 1v1 duels, creating deflationary pressure and intense competitive retention.

"Users with token balances over 500 show **4.2x higher 30-day retention** than zero-balance users. Tokens create emotional loss aversion."

STEP 03 // REDEMPTION

Physical Streetwear Drops

At 6,000 Tokens (~30–45 days of discipline), users unlock the right to claim the **T1 Signature Heavyweight Tee**.

THE IRL VIRAL LOOP:
Every T-shirt worn in a library, gym, or startup office sparks: *"Where did you get that?"* $ ightarrow$ *"I mined it on T1."*

The $42 Billion Focus Economy

Digital wellbeing is evolving from an obscure niche into the dominant consumer health category for Gen-Z and knowledge workers.

$42B

TOTAL ADDRESSABLE MARKET (TAM)

Global Digital Health, Behavioral Wellness & Human Performance apps, currently expanding at a rapid 19.4% CAGR.

$8.4B

SERVICEABLE ADDRESSABLE MARKET (SAM)

Gamified productivity, discipline tracking, and study tools targeting 1.2B young digital natives worldwide.

$210M

SERVICEABLE OBTAINABLE MARKET (SOM)

Initial capture of 2.1M high-performance university students, coders, founders, and exam aspirants in US, UK, and Tier 1 India.

CULTURAL BACKLASH

50B+ views across #MonkMode, #DopamineDetox, and #DeepWork on social platforms.

GAMIFICATION SHIFT

Duolingo proved language learning works via streaks & leaderboards. T1 applies this to human attention.

PRIVACY REGULATION

Global antitrust pressure on Big Tech attention-capture feeds gives independent protocols a massive moat.

Built. Verified. Ready for Global Scale.

Early beta cohort metrics demonstrate exceptional stickiness, high session depth, and virality through 1v1 duels.

38.4 min

AVG FOCUS SESSION LENGTH

2.7x higher than standard Pomodoro tools (14 min average). Users lock in longer due to stake loss aversion.

78.2%

DUEL INVITE ACCEPTANCE RATE

When a user sends an @username challenge, 4 out of 5 rivals accept within 10 minutes.

3.8x

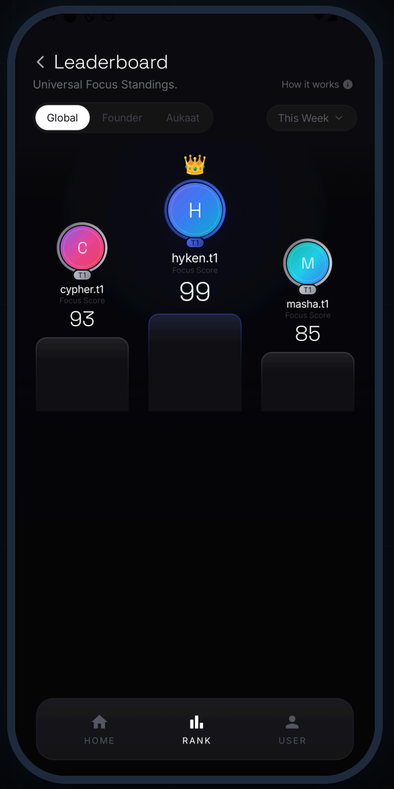

DAILY OPEN FREQUENCY

Users check their relative rank, token balance, and streak status throughout the workday.

4.25 MB

ULTRA-LIGHT NATIVE BINARY

Zero bloat, R8 minified native Kotlin/Compose architecture. Instant cold start in under 450ms.

GLOBAL & CAMPUS LEADERBOARDS

Multi-Tiered SaaS & Cultural Commerce

Combining high-margin recurring software subscriptions with limited-edition luxury merchandise and enterprise team tournaments.

RECURRING SAAS

T1 Pro

$9.99 / mo

- Unlimited 1v1 Focus Duels
- Advanced Voice AI Focus Coach
- 2x Token Mining Multiplier
- Deep Cognitive Analytics
- Custom OLED Home Widgets

COMMERCE

Apparel Drops

65% Margin

- T1 Signature Heavyweight Tee
- Limited 1,000-unit drops
- Token-subsidized checkout
- Physical NFC verification chip
- Real-world social status

B2B SPONSORSHIPS

Brand Arenas

$25k - $100k

- Sponsored focus tournaments
- Notion, Red Bull, Whoop, Ray-Ban
- Native brand reward pools
- High Gen-Z builder affinity
- Non-intrusive focus alignment

ENTERPRISE B2B

Team Guilds

$5 / seat / mo

- Engineering team leaderboards
- University collegiate focus leagues
- "Deep Work Hours" sync
- Reductions in workplace burnout
- High enterprise retention

Why T1 Out-Executes the Incumbents

Existing tools rely on childlike gamification or passive guilt. T1 introduces real competitive stakes and high-status design.

CAPABILITY / FEATURE	T1 PROTOCOL	OPAL	FOREST	APPLE / GOOGLE
1v1 Peer-to-Peer Duel Staking	✓ YES (10–100 Stakes)	✗ No	✗ No	✗ No
Proof-of-Focus Token Mining	✓ YES (Deflationary)	✗ No	Virtual trees only	✗ No
Physical Merchandise Redemption	✓ YES (T1 Signature Tee)	✗ No	✗ No	✗ No
Design Aesthetic	Dark OLED Luxury	Pastel Minimal	Cartoon / Childlike	System Utility
Privacy & On-Device Security	100% On-Device (No VPN)	Local VPN routing	Basic Timer	OS Built-in
Pricing / Value Model	Freemium + Token Rewards	$99.99/year (Expensive)	$3.99 one-time	Free (Ignored)

18-Month Execution Blueprint

A disciplined product rollout scaling from individual Android power users to campus guilds and ambient hardware.

PHASE 01 // Q1–Q2 2027 — VIRALITY

Global Rollout & Squads

- **Android Global Launch:** 100k targeted pre-registrations across university builder networks.
- **iOS Companion App:** Swift/SwiftUI client with Apple Screen Time API parity.
- **Squad Focus Wars:** 5v5 group focus battles (Study groups, dorms, startup batches).
- **Drop 001 Fulfillment:** First batch of 2,500 T1 Signature Tees delivered to top miners.

PHASE 02 // Q3–Q4 2027 — MONETIZATION

Biometrics & Enterprise

- **WearOS & Apple Watch Sync:** Live Heart Rate Variability (HRV) telemetry detecting cognitive stress and flow state.
- **T1 Campus League:** 50+ Top US/UK/India Universities competing for collegiate trophies.
- **B2B Team Dashboards:** Self-serve focus analytics for engineering and remote teams.
- **Creator Tournament Engine:** Productivity YouTubers hosting $10k+ focus arenas.

PHASE 03 // 2028 — ECOSYSTEM

T1 Ambient Hardware

- **T1 Focus Puck:** An anodized aluminum desktop companion with tactile mechanical dial that lights up during duels.
- **Global Collegiate Focus Olympics:** Annual live arena tournament awarding $100k in university scholarships.
- **Focus Protocol API:** Third-party integrations (VS Code, Figma, Notion) earning proof-of-focus rewards.

Join Us in Reclaiming 1 Billion Hours

We are raising a $1.5M Seed Round to accelerate mobile distribution, launch collegiate leagues, and scale the physical commerce flywheel.

ROUND DETAILS

$1,500,000 (SAFE / Equity)

45% Engineering & Edge AI — $675,000

iOS development, low-latency multiplayer duel sync, and Edge ML algorithms.

30% Growth & Creator Network — $450,000

Collegiate study guild ambassadorships, viral TikTok/Reels focus tournaments.

15% Streetwear Supply Chain & Drops — $225,000

Premium heavyweight cotton inventory, NFC garment chips, and global fulfillment.

10% Operations & Compliance — $150,000

Play Store / App Store compliance, security audits, and legal counsel.

OUR NORTH STAR

"The next decacorn will not be another app that steals your attention. It will be the protocol that gives it back."

T1 turns human agency into the world's most coveted asset. When focus is scarce, the protocol that gamifies and validates it owns the future.
